

Sahrul Ridho Firdaus

Bandung , Indonesia | sahrulridho@student.telkomuniversity.ac.id | <https://hiraeth12.github.io/portfolio/>

Currently in my sixth semester of Computer Engineering at Telkom University, I've worked as a teaching assistant and managed lab inventories at the SEA Lab. With hands-on experience in front-end development and a solid ability to collaborate effectively in team settings, I'm now dedicating my efforts toward learning and building in the field of Artificial Intelligence.

EXPERIENCE

LABORATORY ASSISTANT • SEA LABORATORY

May 2024 - June 2025 | Bandung, Indonesia

- Led the development of an informational website for Desa Sukamaju, managing both the technical front-end implementation and coordination among team members to ensure timely delivery.
- Taught C programming to first- and second-year students during software-focused lab sessions.
- Assisted in managing and delivering practical software engineering activities, supporting student learning and lab operations.
- Responsible for organizing and maintaining laboratory equipment to support practical sessions and internal research projects.
- Helped enable the SEA Laboratory's software research team by ensuring necessary tools and systems were in place.
- Demonstrated strong teamwork and communication skills through cross-functional collaboration with fellow assistants and students.

EDUCATION

TELKOM UNIVERSITY

- Bachelor of Engineering in Computer Engineering | 6th Semester • September 2022 - 2026 (Expected)

SOFT SKILLS

- Communication
- TeamWork
- Responsibility

HARD SKILLS

- C
- Python
- TypeScript
- React
- MySQL
- Git
- Figma

LANGUAGE
